Wholesale Offer

of Our Specialties Spring 1936

Did You Notice Our Price on MEYER'S JUNIPER?

An unusually fine Juniper of slow growth, very useful in foundation plantings, in Rockwork or as specimens. It is distinct in its fine blue color, its foliage and its form, upright and dense. We have always grown a goodly amount of this Juniper, hence the special price:

IMPORTERS OF HOLLAND BULBS

Japanese Rose-Flowering Cherries

Grown in the Heart of Michigan without protection over a number of years our Japanese Cherries have proven absolutely hardy.

Our cherries have proven perfectly hardy, also in Illinois along Lake Michigan, the toughest test.

These cherries are in bush form, which is highly desirable for delightful landscaping.

OUR POTTED GARDEN ROSES

For late Spring and Summer plantings we prepare 2 year No. 1 Roses in 6" pats, shipped from cold-frames where they have had just enough warmth to get properly rooted. This year especially we will have a good many and in the finest varieties. Our list of these will be sent upon request.

WATER PLANTS

We carry a good line of Water Lilies and other Water Plants. Mostly in pats for planting throughout the Spring and Summer season.

IMPORTED GRANULATED PEAT MOSS

We carry in stock for immediate shipment Imported Peat Moss, large solid bales.

1-4 Bales	\$3.00 per bale
5-25 Bales	2.60 per bale
25-100 Bales	2.50 per bale

Special quotation on Carload lots.

Prices subject to change without notice.

French Hybrid Lilacs

Including the Newest

This article is a great specialty with us. We grow close to 100 varieties including all important new Hybrids, and we are quoting here on varieties of which we still have sufficient quantity to warrant listing. However, good Lilacs are scarce and the supply of most varieties listed is limited. Except where marked o.r. (own root) our Lilacs are grafted on Lilac Vulgaris. We pot our understock in winter, "de-eyeing" them carefully, plunge them into coldframes, then take them up again in September for grafting in the greenhouse. At that time an ideal union is obtained. As we have about four times to go over the plant and removing any growth below the graft, there very seldom are any suckers at all on our grafted Lilacs. This method makes an exceptionally strong plant that produces immense flower trusses. Next year we shall also have a quantity of Lilacs in l.o. sizes on their own roots.

WE GUARANTEE OUR LILACS TO BE STRICTLY TRUE TO NAME.

Wholesale List of

Our Wonderful
Improved and
Early-Flowering

Outdoor Chrysanthemums

For
Spring
1936

No summer or fall-flowering plant gives greater satisfaction and pleasure than the new Early Flowering Chrysanthemums. They come into bloom near the end of August and do not stop until heavy frosts.

For long lasting Cut Flowers or charming color effects in the Garden they have no rival.

■ ■

THE METHOD we follow in handling Outdoor Chrysanthemums has, over a number of years, proven the most satisfactory for garden planting. They come to you out of 2¼" pots, shipped when danger from heavy frost is over. **Our plants bloom profusely this year.**

PRICE: Plants well-established from 2¼" pots. Except where noted: \$1.00 per 10; \$7.00 per 100, \$60.00 per 1,000.

INTRODUCTION. The date back of the name of variety refers to the date of introduction.

Date back of varieties refers to flowering time at Lansing, Michigan

- A. BARHAM**, Beautiful large orange bronze. Matures September 30. Height 2 feet.
- ALADDIN (1932)**, Starts blooming about September 10. Charming orange bronze. Large blossoms, long stems.
- ALICE HOWELL**, Lovely orange yellow. Single. Oct. 5.
- AMELIA (1933)**, (Pink Cusheon), Blooms profusely from September until killed by frost. Bright pink. \$1.00 per 10; \$8.00 per 100.
- CARRIE** (Glory of Seven Oaks), Large deep yellow. Matures September 25. Height 2 feet.
- DAYBREAK**, Shell-pink, early October.
- EDEN**, Bright Rose. Large. A beauty when disbudded. Matures September 30. Height 1½ feet.
- FRANCES WHITTLESEY**, Crimson and bronze. Early October.
- GANNA (1931)**, Bright pink, robust growth. Comes into color October 1. Flowers 2½ inches in diameter. Height 2½ feet.
- GLADA (1930)**, Large soft pink approaching light salmon. Flowers profusely the end of September.
- GLOMERO (1933)**, A gorgeous light bronzy orange. Flower 1½" across. Height 23". October 1.
- GRENADIER**, Crimson with bronze sheen. Single. October 10.
- LITTLE BOB**, Dark red Button type. October 1.
- LORELEI**, Improved Wolverine. Clear yellow. Sept. 10. 26" high.
- MURILLO (1925)**, Strong and very hardy. Finest shade of pink among the early hardies. Height 2'. October 12.
- OCTOBER GIRL**, Pink, shaded lavender. Semi-double. Late Sept.
- OLGA (1932)**, Shows color September 20. Orange bronze cast which changes to a medium shade of pink. Height 2'. Matures October 10.
- PINK CUSHEON (Amelia)**, Lovely bright pink blossoms from September until killed by frost. \$1.00 per 10; \$8.00 per 100.

ROSY GEM (1932), Bright rose, similar to Gonno with less of the purple cast. Height 2'.

SEPTEMBER QUEEN (1930), Begins flowering late in August. Large pure white flowers.

SONOMA (1931), Bronze with golden reverse and gold tipped petals. Oct. 1. Flowers 2½". Height 2½'.

WINNETKA (1914), Large, pure white. Very free flowering. Flowers September 20. Height 1½'.

WOLVERINE (1923), Finest brilliant yellow. Beautiful color. Matures August 30. Height 2'.

YELLOW NORMANDIE, A beautiful bronze yellow. Flowers September 10. Height 1½'.

ZAZA (1931), Yellow, with orange at base of petals. October 1. Flowers 2½" in diameter. Height 2'.

MOST RECENT INTRODUCTIONS

PRICE: \$1.75 per 10, \$12.00 per 100, from 2¼" pots.

BRILLIANCY, Early single flowers of unusual brilliance. Bright red with a halo of yellow around the disc. Strong upright growth. 18" high. October 1. Flowers 2¾" in diameter.

CRIMSON GLORY, Very bright crimson of pompon type. Matures Oct. 5. Excellent stem and foliage, 16" high; flowers 2½" across.

FLASHLIGHT, Bright glowing crimson. **The first bright red early hardy Chrysanthemum.** Matures September 30.

OCTARARO, The very best rose-pink outdoor chrysanthemum. Flowers 2½" across with reflexing petals; true decorative type. Stiff upright stem, 26" high. Oct. 10.

SARANAC, Bright yellow, darker than Wolverine. Very free-flowering. Height 18". Matures Oct. 5. Blooms 3" across.

SUNKIST, Bright orange, very free flowering. Height 18". The flowers are 1¾" in diameter. Matures September 25.

NEW FOR 1936

FANTASY, Large full-double Chrysanthemum of soft light orange yellow, long stem and blooming from about Sept. 15 on. \$3.50 per doz.; \$25.00 per 100.

PEONIES FOR FALL, 1936

FOR FLORISTS — FOR NURSERYMEN —
FOR SEED HOUSES

Good Peonies are beginning to get somewhat scarce, while the interest in this finest of all Perennials is again growing rapidly.

Besides having large quantities of the better Standard varieties, we also have, as usual, an immense collection in the newest Peonies to offer. We always have three plantings: a one-year, a two-year, and a three-year planting. Every year we dig the three-year planting for the market. We do not cut flowers from our stock for commercial shipping and therefore our Peonies are of the finest quality, young, vigorous roots and strong plumb eyes.

If you are in the market for Peonies for next fall planting it will pay you to get in touch with us.

Hardy-Perennial Specialties

	Per 10	Per 100
ACHILLEA Millef. Cerise Queen, Dark cherry red	\$ 1.00	\$ 8.00

CHRYSANTHEMUMS

This is one of our specialties. We issue a special folder of these and can supply a general assortment of about 40 varieties, from pots, for late spring delivery. These plants are ideal for outdoor planting as they are sure to produce an abundance of bloom for your customer. Some of our varieties start blooming as early as late August and most of them come freely in late September and early October.
